1. What is the main purpose of the study?
 2. What are the research objectives?

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is a result of the fact that urban areas offer more opportunities for employment and education than rural areas. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the way of life in the United States. The majority of the population now lives in urban areas, which has led to the development of a new way of life. This new way of life is based on the needs of the urban population. It is a way of life that is different from the way of life in rural areas. The process of urbanization has led to the development of a new way of life in the United States. This new way of life is based on the needs of the urban population. It is a way of life that is different from the way of life in rural areas.
